Our Bearings, Your Solutions

UBC Precision Bearing Manufacturing Co., Ltd.

Discover **UBC**

Since its introduction in 2002, UBC has been supplying quality bearing products to the various kinds of manufacturing industries worldwide.

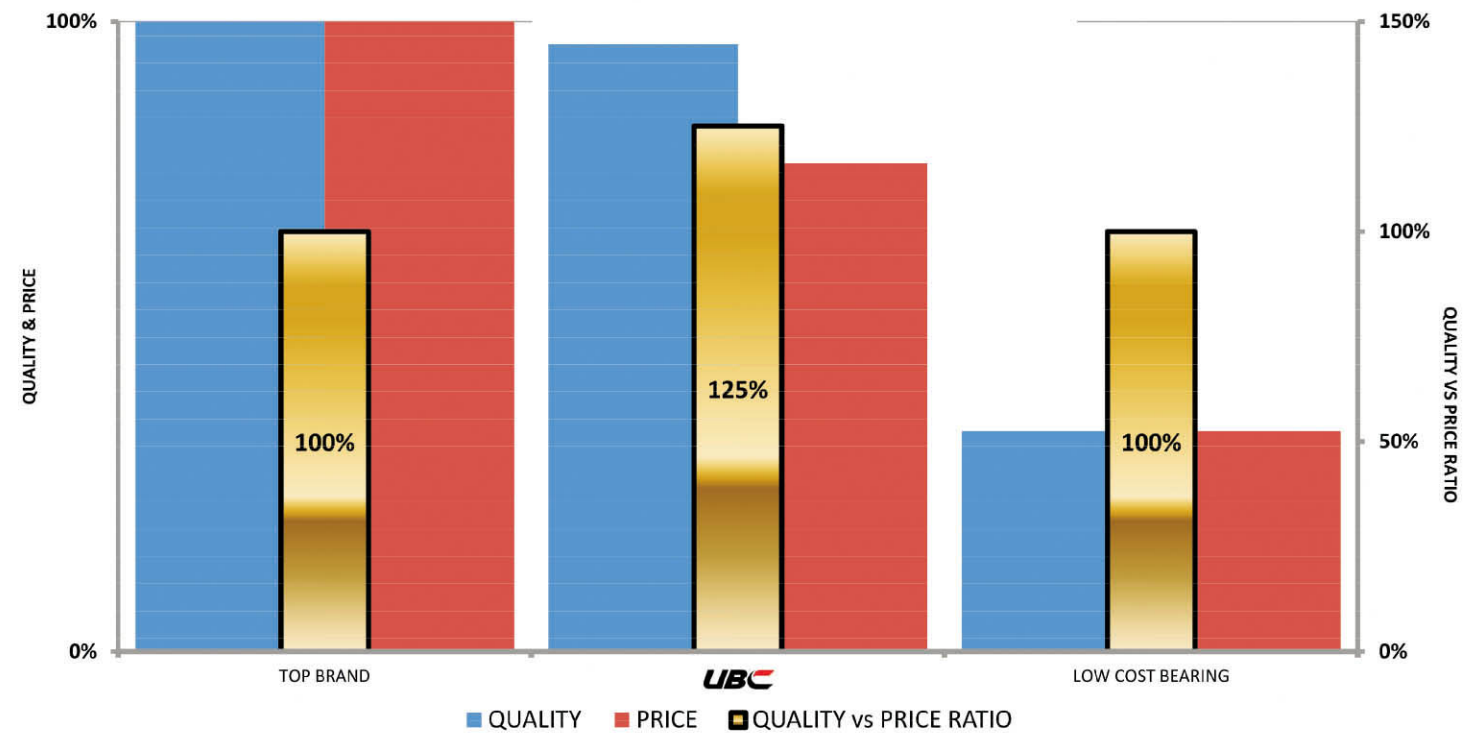

Under UBC Precision Bearing Manufacturing Co., incorporated in Shanghai, China, UBC brand has made headway into China bearing market by supplying to OEMs with cost-efficient products together with value-added services. Its roster of OEM customers is full of global brand names and market leaders in their respective industries. Complementing this, UBC has extensively developed its distribution network around the world, backed up by over 40 authorized distributors, as well as more than 100 sub-distributors representing the major local supply houses for industrial parts.

Today UBC has established a strong link on the supply chain for high-grade, competitively priced bearing products worldwide. Across from Asia to South America, its team of technical representatives ensures customers to be provided with key agents and distributors in over 40 different countries.

UBC has been increasing its brand value through developing new bearing series, more value-added products with personalized services and opening new global markets.

In January 2017, UBC became a member of IKO Nippon Thompson Group, one of the most recognized names in bearing industry. This shall give UBC a great opportunity and power to grow its brand value even stronger and broader.

UBC BEARINGS Brand Positioning

"In the history of China-produced bearings, there has never been a product or a manufacturer which brings both world-class quality and reasonable prices together. UBC is here to fill that gap in the market" (Domingo Peñaloza, Chairman and founder of UBC Precision Bearing Manufacturing Ltd. Co.)

UBC Product Range

Deep groove ball bearings

Customized ball bearings for electric motors (EMQ5)

High precision angular contact ball bearings

Self-aligning ball bearings

Thrust ball bearings

Bearing units & bearing inserts

Cylindrical roller bearings

Taper roller bearings (metric & inch design)

Spherical roller bearings

Thrust spherical roller bearings

Needle roller bearings

Bearing accessories

UBC Engineered Products For Heavy Industry Application

- Construction Machines
- Industrial Transmissions
- Marine
- Material Handling
- Metal
- Mining, Mineral Processing and Cement
- Oil and Gas
- Power Generation
- Pulp and Paper
- Wind Energy
